

# City of Dexter Community Garden

2019 Season

## Getting the garden growing

Garden applications were available from the late winter until spring through links on the City of Dexter website and on garden's Facebook page. To promote the gardening program, a variety of resources were used to reach as many area residents as possible.

In early March, a number of flyers were placed on the information boards throughout the city. Social media advertisements were used to target potential gardeners.

As in previous years, City of Dexter residents had first priority over non-residents in applying for plots and returning gardeners were allowed to request the same plots as they had used in previous season.

After receiving confirmation of their plot applications, plots were assigned and gardeners were invited to participate in the Spring Work Party.

Plowing and staking out of the garden was completed by mid May.

Spring Work party was well attended this this year.

The weather was glorious - gardeners worked hard on weeding the central path, installing the entrance gates and setting up the hoses. After couple of hours of community work garden was set and planting begun.

## End of the season

The garden clean up party was held on the 12th of October.

Majority of gardeners opted to clean up their plots ahead of time as fall weekends are busy with events and rain is always a possibility. Hoses and tools were safely put away for the winter. Garden was plowed later in November.
